

Sunpak LED 96 Video Light

Highlights

The Sunpak LED 96 Video Light lights up your subjects for better color, contrast and clarity. With 96 high powered LED's, this compact light brings new depth to your videos. The powerful LED's can illuminate over 30 feet. The LED 96 also has a dimmer control to adjust the amount of light. Powered by just four AA batteries in a compact housing makes it the perfect choice to keep with your camera or camcorder all the time. With its shoe mount design you can mount it to any camera or camcorder that has a tripod socket. Best of all, it is compatible with all cameras and camcorders.
